[Figure2 PE SedimentSampling R2.pdf](#)

Hello Jim,

Thank you very much for cooperating with EPA's need for access to the Lauritzen Channel this week. For your reference, here are maps of the locations where we currently have samplers deployed in the sediment or mussels attached to pilings. We plan to retrieve everything on October 10, so our divers will need access to the sampling locations again on that day. Please let me know if you would like additional information, or if you have any questions.

Sincerely,

Rachelle Thompson, MS, PE
